EXPERIENCE

Vision Waves, Indore - UX Designer

July 2024 - PRESENT

Working on high-complexity confidential enterprise SaaS products for international clients, alongside enterprise AI and data platforms. Closely collaborating with developers, product owners, and engineering teams to design scalable and user-focused experiences. Defined and maintained design systems and design tokens across 90+ modules while contributing to AI applications, ML Studio, Models & Datasets, and Data Operations platforms including CDC and ETL workflows. Also using tools like Claude Code and ChatGPT Codex to help transform concepts and designs into production-ready experiences.

[Projects mentioned in portfolio]

Key Contributions:

- Built and scaled design systems and tokens across 90+ enterprise modules.
- Designed workflows for AI, ML, and data operation platforms.
- Collaborated closely with engineering teams for accurate implementation.
- Used HTML, CSS, and Tailwind CSS to support frontend implementation.

Cyber Infrastructure (CIS), Indore - UI/UX Designer

February 2022 - June 2024

Worked as a UI/UX Designer on multiple client and in-house products, creating wireframes, user flows, responsive interfaces, dashboards, and interactive prototypes for web and mobile applications. Collaborated with developers and stakeholders to deliver user-friendly and visually consistent experiences across different products using Figma and Adobe XD.

Key Contributions:

- Designed responsive dashboards, admin panels, and mobile app interfaces.
- Created interactive prototypes and user flows for development handoff.
- Improved usability and visual consistency across multiple products.
